INSPECTIONS, MAINTENANCE, MODIFICATIONS & SPARE PARTS

Reducing downtime and extending the lifetime of your NIJL equipment is our business! The NIJL service team has in-depth knowledge of the performance of docking systems and ground support equipment and is more than ready to:

- 1 Perform inspections and maintenance
- 2 Deliver all required original spare parts
- 3 Adequately train your employees to ensure your equipment is properly used
- 4 Execute product modifications and upgrades
- 5 Assist in checking the possibilities of how your equipment can cater for other or new aircraft types. When necessary NIJL can execute the required modifications as well.

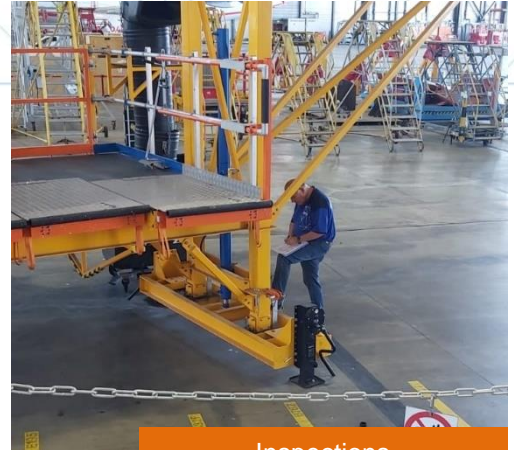

Key Benefits

- + Maximize your productivity and efficiency
- + Reduce operation and maintenance costs
- + Detect failures of critical components in an early stage to reduce costly downtime
- + Plan and optimize your maintenance schedule effectively
- + Make sure your equipment still complies with all required technical and health & safety regulations
