APU ACCESS STAND FIXED HEIGHT

Product Group 8009 (P/N 330APUs-fx)

With the NIJL APU Access Stand, APU inspections and maintenance can be done safe and fast. The stand is designed with a large working platform, so multiple technicians can perform work to the APU simultaneously and also can store their toolboxes.

Key Benefits

- + Large working platform for tools and maintenance engineers that can work simultaneously
- + Additional plug in steps to access the top of the APU compartment
- + Designed for Airbus A330 APU maintenance tasks

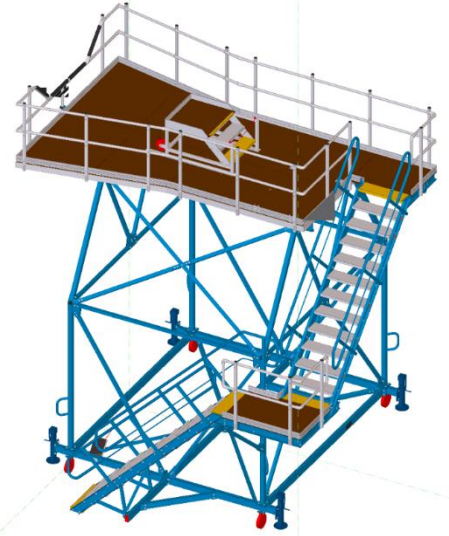

Features

- + Stable and robust design with fixed stairs
- + Fixed height
- + Steel main frame structure
- + Aluminum floor support frame
- + Marine plywood with anti-slip surface
- + Fixed platform frame with fixed contour for tail section
- + Fixed railings on both sides of the stairs
- + Additional plug-in steps to reach top of APU compartment
- + Swivel wheels with directional lock
- + Stabilizer jacks on each corner for stability and levelling
- + Rubber padding to protect aircraft skin
- + For aircraft on wheels

Specifications

- + Platform length: approx. 5000 mm
- + Platform width (tapered): approx. 3470 mm (aircraft nose side)
Platform width (tapered): approx. 2500 mm (aircraft nose side)
- + Height platform floor : 5375 mm
- + Product footprint dimensions (LxW): approx. 6230 x 5160 mm
- + Product weight : approx. 1950 kg
- + Max. load 200 kg/m2 on platform with a max of 10 persons
