# MAIN CABIN DOORS ACCESS

## Product Group 8043

Safe and fast access to all the cabin doors on both sides of the aircraft with the Universal Pax Door Access Stair. This stand takes up little space in the hangar, because the design is optimized with an intermediate platform, which reduces the footprint.

### Key Benefits

- + One stair that fits multiple wide body and narrow body aircraft types on wheels
- + Self-propelled stand with electrical mover for easy movement
- + Self-adjusting platform edge and railing to conform to aircraft contours
- + Easy height adjustment, because of electrical height adjustment control
- + Easy access to the aircraft through the large working platform
- + Upper stair in one straight line to easily enter the aircraft

### Features

- + Flexible railing system for fall protection and perfect fit to aircraft
- + Large height adjustment range
- + Rubber padding to protect aircraft skin
- + For use in hangar or on apron
- + Towbar included
- + Optional: waste chute

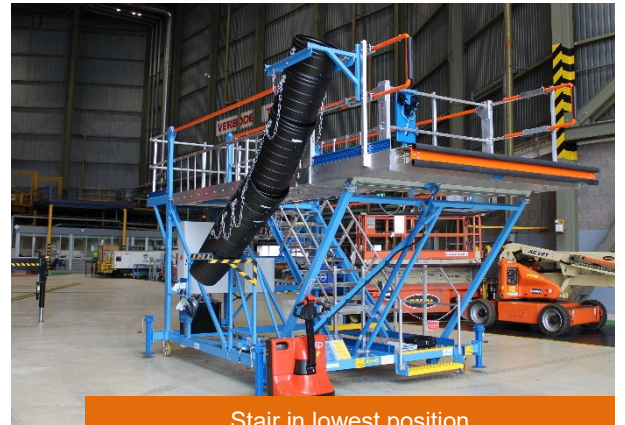

### Specifications

- + Footprint dimensions : approx. 7400 x 3800 mm
- + Platform dimensions : approx. 3000 x 1800 mm
- + Min height upper platform floor : 2730 mm
- + Max height upper platform floor : 5670 mm
- + Max load : 2 persons (250 kg) on fixed stair + 2 persons (250 kg) on height adjustable platform.
- + Product weight : approx. 2000 kg.

*Other platform dimensions and aircraft combinations upon request*
