

B787 ACCESS EQUIPMENT

Complete package and full service for B787 Access Equipment

NIJL Aircraft Docking 2.0 has acquired a wealth of expertise and practical experience in collaboration with airlines and aircraft builders. As a result the B787 Access equipment is developed and designed to ensure faster, safer and sustainable maintenance to aircrafts.

With in-house engineering NIJL Aircraft Docking 2.0 offers a full service package from design up to delivery on site, commissioning and training.

With the advanced 3D scanner NIJL made detailed 3D aircraft scans to explore the specific maintenance needs for the B787 aircraft and to ensure optimal access.

“With the advanced 3D scanner we are able to make detailed 3D aircraft scans to ensure optimal access to specific areas around the aircraft.”

Nose / Fuselage Access Dock for B787

Key benefits

- NIJL has a proven record with leading airlines / MRO's and aircraft manufacturers
- Short Turn Around Time
- Turn-key delivery
- NIJL docking systems are designed in accordance with the latest Health & Safety regulations

Detailed 3D scanning resulted in 3D drawing and from there to the development of the B787 Nose Landing Gear Stand.

Multifunctional

Hangars are full of equipment. Lack of space is an issue. Therefore, NIJL steps, stands and docking systems are designed to cater for several aircraft types.

The B787 access equipment is also suitable for combinations with other wide body aircrafts and covers also the B787-9

Hence, by using one piece of NIJL equipment, you can access several aircraft types. This means less equipment needed, and therefore fewer expenses.

Complete B787 Access equipment available for A- to light C-checks, like

- Cargo access stands
- Nose landing gear stands
- Under Cowling Access stands
- Pylon stand, etc

Complete B787 Docking Systems for heavy C- to D-checks, like

- Nose dock
- Fuselage dock
- Tail dock
- Wing dock, etc
